ture Rural Development

What is the CFCC?

The California Financing Coordinating Committee (CFCC) was formed in 1998 to facilitate and expedite the completion of infrastructure projects by helping interested parties identify and combine the resources of various state and federal financing sources. The CFCC has seven members: six state, one federal. CFCC members share project information so additional resources can be identified. Funding from CFCC members may be in the form of grants or loans. Members conduct statewide training each year to educate interested parties about the CFCC and the financial and technical resources available.

Find more information at: www.cfcc.ca.gov

Purpose of Funding Fairs

CFCC funding fairs provide members of the public and infrastructure development professionals current information on funding options available for different project types. Interested parties attending a funding fair receive a CFCC handbook and informational handouts describing available financial and technical assistance. The handbook includes CFCC member contact information, project matrices showing funding sources by project type, and copies of all the PowerPoint presentations given by members. Attendees of a funding fair can network with persons experienced with similar projects and the CFCC members. CFCC funding fairs are free.

Who should attend?

Public works and local government representatives including city managers and planners, economic development and engineering professionals, officials from privately owned facilities, financial advisors and project consultants.

2009 Funding Fair Partners

CFCC is pleased to acknowledge and thank the California Rural Water Association for the morning refreshments that will be provided at the 2009 Funding Fairs (excluding Cal EPA).

Acknowledgement and thanks also go to the following 2009 Funding Fair site providers:

- Inland Empire Utilities Agency in Chino
- University of California Merced in Bakersfield
- City of Eureka
- University of California Cooperative Extension, Merced
- California Environmental Protection Agency

CFCC Funding Fairs 2009

February 3, 2009 - Chino
Inland Empire Utilities Agency
6075 Kimbal Ave, Bld B | Chino, CA 91708

February 5, 2009 - Bakersfield
University of California | UC MERCED, Bakersfield Center
2000 K Street, Lakes Room | Bakersfield, CA 93301

March 10, 2009 - Eureka
City of Eureka Wharfinger Building
1 Marina way | Eureka, CA 95501

April 2, 2009 - Merced
Merced County | University of California Cooperative Extension
2145 Wardrobe Ave | Merced, CA 95341-6445

May 7, 2009 - Sacramento
CALEPA Headquarters Building | Coastal Hearing Room
1001 I Street | Sacramento, CA 95814
*The Sacramento workshop will be web broadcast.
Access to the webcast will be available online at:
<http://www.calepa.ca.gov/broadcast>.*

Directions are available at www.cfcc.ca.gov

Agenda

8:30 a.m. to 9 a.m. Check in
9 a.m. to Noon..... Member presentations
Noon to 1 p.m. Lunch on your own
1 p.m. to 4 p.m. Discuss your projects

What happens at a Funding Fair?

The morning of each funding fair is spent listening to presentations from each of the different funding agencies. Agency staff will describe funding programs available for different types of projects and the application process for accessing the funds. Participants may ask questions of staff during the presentations. In the afternoon participants can sit down “one-on-one” with each of the different funding agencies to review any proposed projects. The project can be evaluated and direction given as to availability of funding and steps needed to submit an application. By providing this direct technical assistance around the state, the CFCC hopes to encourage project developers, large or small, to discuss proposals with CFCC staff.

Examples of CFCC Projects

Big River and Salmon Creek Conservation Forestry Acquisition Project, is located in Mendocino County. The \$48.5 million project was funded in part from a \$25 million CWSRF low-interest loan from The State Water Resources Control Board, \$7.250 million grant from the Coastal Conservancy, \$7.250 million grant from the Wildlife Conservation Board, \$5 million from The Conservation Fund and \$4 million from other public and private sources. This project will help achieve important water quality protection and enhancement goals in these watersheds by implementing sustainable forest practices and measures that will reduce timber harvest levels and nonpoint source pollution from sediment and related impacts.

Sewer Collection System and Wastewater Treatment Plant Storage and Disposal Project, developed by the Lamont Public Utility District. The \$6.5 million project was funded in part from a \$2 million grant from the State Water Resources Control Board’s Small Community Wastewater Grant Program, a \$4.5 million loan from the United States Department of Agriculture Rural Utilities Services Program. This photo shows one of four newly constructed 270 acre-feet storage and/or treatment ponds funded as part of the project.

San Elijo Joint Power Authority (SEJPA) identified energy efficiency projects in 2006-07 at their Water Reclamation Facility in Cardiff-by-the Sea (San Diego County). The identified projects included chemically enhanced primary treatment, automated process control with variable blower, replacing bigger blowers with the smaller ones, installing SCADA system, and adding an anoxic/Anaerobic selector in the aeration basin. It was estimated that if these projects were implemented, SEJPA’s electric load and electricity consumption will be reduced by 103 KW and 770,000 kWh/yr, respectively, saving SEJPA approximately \$120,000 annually. The total cost of the project was close to \$1.235 million. The Energy Commission provided a no-hassle low interest loan of \$1.193 million to implement these projects. It is expected that work on these projects will be completed by the end of January 2009.

Eligible Project Types

CFCC Agencies fund the following types of eligible projects such as drinking water, waste water, water quality, water supply, energy efficiency, flood management, streets and highways, and emergency response vehicles.

2009 CFCC Registration

Funding Fairs are FREE, but REGISTRATION IS REQUIRED. Register by emailing the information to:
ibank@ibank.ca.gov or faxing this flap to (916) 322-6314. Registered late arrivals may forfeit seating after 9 a.m.
Walk-ins accepted only if seating is available. Questions? Please call (916) 322-1399.

Name: _____ Title: _____ Organization: _____
Address: _____ Phone: _____ Fax: _____
Email: _____

Please make sure to indicate which CFCC Funding Fair you would like to attend.

☐ CHINO - February 3 ☐ BAKERSFIELD - February 5 ☐ EUREKA - March 10 ☐ MERCED - April 2 ☐ SACRAMENTO - May 7
